Dear Hiring Manager,

I'm excited to apply for the role of Technical Director - Engineering Efficiency at Roblox. I believe the following skills and experience I have are a good fit for the role:

- Proven track record of delivering highly technical solutions in multi-stakeholder environments, with a focus on developer productivity technology.
- A multiplier, constantly striving to make the teams I work with better and more engaging.
- Passionate about the engineering experience and championing the importance of reliability and efficient practices.
- Forward thinker who incorporates the long-term view and plans the bridge between short-term solutions and long-term goals.
- Customer-focused, enjoying the challenge of working with customers to define world-class solutions that scale.
- Experienced technical leader, having successfully ideated and delivered important tool and infrastructure projects that scale with company growth.
- Strong recruitment skills, focused on building diverse and inclusive teams.
- Bachelor's degree in Computer Science, Computer Engineering, or a similar technical field.

The mission of Roblox is important to me because it provides a platform for creativity and learning, empowering individuals to build their own virtual experiences. I believe in the power of technology to connect people and create new opportunities, and Roblox is at the forefront of this movement.

Thank you for considering my application. I appreciate your time and consideration, and I look forward to the opportunity to contribute to the growth and success of Roblox.

Sincerely,
Alex Worden
